

ONBOARD ACCESSIBILITY & MOBILITY AIDS

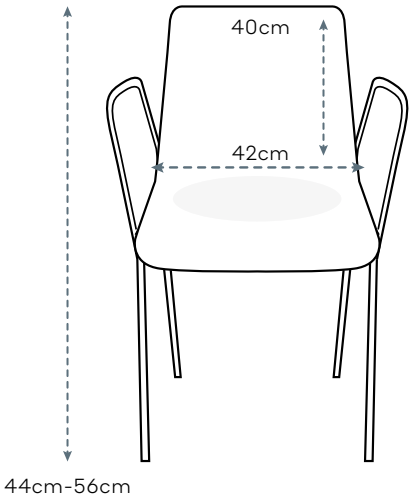

Your comfort and wellbeing onboard our trains is a priority for us at Journey Beyond. We want every guest to feel relaxed, supported and able to enjoy their journey from the moment they step onboard.

To help make your experience as comfortable as possible, a range of accessibility and mobility aids may be available for use during your journey. As onboard quantities are limited, guests are encouraged to advise any requirements in their Fitness for Travel form prior to departure. Guests are required to be able to manage their personal care and mobility needs independently, or travel with a carer who can provide any necessary support, as Journey Beyond staff are unable to assist with these requirements.
